We, the undersigned, urge Colorado County to work with LCRA to

Stop Poisoning LaGrange and Work to Shut Down the Fayette Coal Plant (FCP)

Put all the coal ash in non-corrosive, water tight containers. Contain and clean all toxins from the water tables, surface waters, air, and soil.

Close the Fayette Coal Plant that causes cancer and poisons families. Use solar and wind to produce electricity.

All Fayette Coal Plant employees are guaranteed jobs paying at least the same salary and benefits. The City of Austin and LCRA will give jobs to those displaced.
